---

#### PROCEDURAL FACTORS

The Panel is satisfied that all procedural requirements under UDRP were met and there is no other reason why it would be inappropriate to provide a decision.

---

#### PRINCIPAL REASONS FOR THE DECISION

1. The Panel finds that the disputed domain names are confusingly similar to the Complainant's trademarks as the difference between the disputed domain names and the Complainant's trademarks is a generic term which directly refers to the activity of the Complainant.

2. The Panel finds that the Complainant successfully submitted prima facie evidence that the Respondent has made no use of, or demonstrable preparations to use, neither of the disputed domain name in connection with a bona fide offering of goods or services, nor is making a legitimate non-commercial or fair use of the disputed domain name, nor is commonly known under the disputed domain name. This prima facie evidence was not challenged by the Respondent.

3. In the absence of a Response, the Panel infers that the Respondent had the Complainant's trademarks in mind when registering the Domain Names, which were therefore registered and are being (passively) used in bad faith, in order to take advantage of a slight mis-spelling of the Complainant's trademarks.

---

FOR ALL THE REASONS STATED ABOVE, THE COMPLAINT IS

Accepted

2. **ASSURANCE-CREDIT-AGRICOLE.INFO**: Transferred
